

THE TRUTH ABOUT COVID-19 VACCINES

FDA-authorized COVID-19 vaccines will not affect or hurt the fertility or the ability to become a parent for anyone, regardless of gender identity, race or ethnicity.

The vaccines will not cause sterility or contribute to sterility, regardless of gender identity, race or ethnicity.

FDA-authorized vaccines will not affect the DNA or alter the DNA of anyone, regardless of race or ethnicity.

The authorized vaccines will NOT give anyone COVID-19, nor will they make anyone more susceptible to getting sick from COVID-19.
